

## **Ann C. Harrie**

Ann Harrie focuses her practice on the areas of environmental, land use, water law, shellfish aquaculture, and litigation. She has a Master's of Science in Public Health with an emphasis in Environmental Health Science and a Bachelor's of Science in Environmental Science and Fisheries. Ann started her career with the State of Montana Department of Environmental Quality where she worked for six years as an environmental scientist in the areas of environmental enforcement and water quality. Her background includes working knowledge in water quality, water rights, permitting, subdivisions, septic systems, public water supplies, hydraulic licensing, and issues relating to the protection of fish and aquatic life. She has experience working closely with state, local, federal and tribal agencies. Ann is licensed to practice law in the states Washington and Montana.
